

COVID Protocols

Cardinal Glennon Children's Hospital (12/2022):

- If **exposed to someone** with COVID (household, unmasked interaction, etc.):
 - Stay home from volunteering for 5 days and no fever with symptoms subsiding.
- If you **test positive** for COVID:
 - Please stay home for seven full days from onset of symptoms.
- Flu and other Respiratory Illnesses: There is not a set # of days yet determined to stay home from volunteering, but for sure 24 hours after any fever and symptoms have improved.

Mercy Kids Children's Hospital (12/2022):

- If **exposed to someone** with COVID (household, unmasked interaction, etc.):
 - Stay home from volunteering for 5 days and no fever with symptoms subsiding.
- If you **test positive** for COVID:
 - Please stay home for seven full days from onset of symptoms.

St. Louis Children's Hospital (8/2022):

- If **exposed someone** with COVID:
 - You will not be able to volunteer for 14 days from the exposure date.
- If you have **ongoing contact** with someone who has COVID (i.e., you live with the person):
 - You will not be able to volunteer for 28 days.
 - This means: 14 days of quarantine from their positive test and then another 14 days as you could still develop symptoms during that time.
- If you **test positive** for COVID:
 - You will not be able to volunteer for 14 days from symptom onset/positive test AND you must be fever free for 24 hours and all other symptoms resolved before returning.
